English level: Upper intermediate

Used tools: MS Visual Studio 2008/2010, TFS, SVN, JIRA, TeamCity, PL/SQL developer, MS Management Studio, Power Designer.

Professional experience:

Team Leader of .NET Team at UBS development center at Luxoft

January 2012 - Present (Project: **Structured Credit - Feeds**)

- Lead team of 6 developers
- Release management
- Code review
- Negotiations with customer about requirements for products
- Creating software architecture for back-end applications
- Manage team using agile methodologies (SCRUM/Canban)
- Prepare technical solutions based on customer's requests
- Maintain JIRA and documentation in actual state
- Mentoring junior developer
- Interviewing candidates for .NET positions

Technologies
- .NET 3.5
- WCF
- XML/XSLT/HTML
- SVN/TeamCity
- MSTest/nUnit
- 3rd party libraries: log4net, Rhino.Mock, Unity, libs written by other teams
- Oracle 10 and MS SQL 2008

Senior .NET developer at UBS development center at Luxoft

December 2010 - December 2011 (Project: **Structured Credit - Feeds**)

- Implement misc tool for main project
- Implement framework for regressions tests
- Creating architecture
- Code review
- Gathering and analyzing requirements
- Preparing documentation
- Implementing set of back-end applications for transforming data formats
- Interviewing candidates for .NET positions

May 2010 - November 2010 (Project: **PBDB**)

- Creating architecture of file transfer app
- Creating DB structure
- Creating custom installers such as (win service installer, COM+ installer, task schedule installer etc.)
- Creating WCF service with custom authentication to upload\download files to\from a DB
- Working with Windows API (making wrappers for API functions)
- Programming for AD and IIS

Senior .NET developer at Global Logic

December 2009 - April 2010 (Project: **Motricity**)

- Creating documentation
- Code review
- Refactoring legacy code to make legacy code work with a new framework
- Transforming application from thread-oriented model to message-oriented model

Senior .NET developer at Vimas technologies

November 2008 - December 2009 (Project: **IPV - ASK**)

- Creating architecture of the designer of components used in main application
- Creating Visual Studio add-ins for frequently used operation
- Making common controls for project (using WinForms, Reflection, LINQ, ADO.NET, ODP, DevXpress components, OOP, Oracle)

.NET developer at Vimas technologies

July 2007 - November 2008 (Project: **IPV - ASK**)

- Designing and developing standalone desktop application for editing data in database
- Creating database server code (stored procedures, views, triggers, also DB objects generator), developing components basing on DevExpress
- Code review
- Writing Technical requirement documents and documenting features.
- Mentoring junior developers

Education and personal info:

Education: Magister of Applied mathematics faculty of National polytechnic university of Ukraine "Kyiv polytechnic institute" (graduated in June 2008 with red diploma)

About myself: I like healthy life and engaged in skiing, bike-cross country, hiking, playing ultimate frisbee

Additional info:
Passport to travel abroad (valid till Oct 2017)
Driver license (A, B categories)
